

MUHAMMAD AHMED

Software Engineer — Full-Stack MERN Developer

Islamabad, Pakistan | 0322 5304113 | muhammadahmed9228@gmail.com | [GitHub: muhammadahmed9228](#) | [LinkedIn: muhammad-ahmed-795b5b394](#)

Software Engineering graduate with hands-on experience building full-stack web applications using the MERN stack. Skilled in database modeling, scalable system architecture, and end-to-end feature development, with a particular interest in designing well-structured, production-grade applications.

INTERNSHIP EXPERIENCE

Software Engineering Intern — LT Engineering & Trade Services

Jul 2025 – Sep 2025

- Gained hands-on exposure to an enterprise management system used for organizational operations.
- Analyzed database structures, entity relationships, and data management workflows within the system.
- Studied enterprise software architecture, system modules, and business process integration.
- Strengthened understanding of database management concepts and real-world deployment practices.

PROJECTS

Digital Polio Campaign Monitoring System — Final Year Project

Built a production-level web application that digitizes Pakistan's paper-based polio campaign workflows, replacing manual paperwork and route planning with centralized monitoring, digital data collection, multilingual reporting, and role-based access control.

Technologies: MERN Stack, MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Redux Persist

Full-Stack MERN E-Commerce Platform

Built a full-stack e-commerce platform enabling users to browse products, manage shopping carts, and place orders through a responsive interface, with secure data handling and efficient database integration for product management.

Technologies: MERN Stack, MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Redux Persist

EDUCATION

Bachelor of Software Engineering — University of Haripur, Pakistan

2022 – 2026

CGPA: 3.34

TECHNICAL SKILLS

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Redux Toolkit, JavaScript, REST APIs, MVC Architecture, Responsive Web Design, Tailwind CSS

Database Technologies: MongoDB, Database Modeling, Schema Design, Data Management

Programming Languages: JavaScript, C++

Tools: Git, GitHub, Postman

AREAS OF INTEREST

Database Design & Modeling, Web Development, Software Engineering Research, Scalable System Architecture
